What is My Entrepreneur Magazine?

An entrepreneur sees an opportunity which others do not fully recognise, to meet an unsatisfied demand or to radically improve the performance of an existing business. They have unquenchable self-belief that this opportunity can be made real through hard work, commitment and the adaptability to learn the lessons of the market along the way. They are not diverted or discouraged by skepticism from 'experts' or from those from whom they seek backing and support, but willing to weigh all advice and select that which will be helpful. In the continual effort to launch and then grow their businesses, they seek out information that assists them with every aspect of business management, from marketing to money, sales, human resources, and more. To find that information—they connect with My Entrepreneur Magazine.
